

December 5, 2025

County: Hopkins County

Greetings:

My husband and I are building a new home at 406 county road 2424 in Como Texas. We are requesting permission to bore under county road 2424 from gas meter to home. We are private residents that will maintain the gas line. Our builder is Jeff Stevens and a Atmos representative will supervise the boring at a depth of 36 inches within county right-of-way (from fence to fence) and installation of the line. It will be a polyethylene (PE) gas pipe with tracer wire. Site location map/construction sketch are attached. If you have any questions, please contact us at any time.

If you have any questions, please contact us at any time.

Sincerely,

Andres and Juliet Rubalcava
